progressive

pursuing new ideas and embracing change

Responding positively to the changing needs of our clients and the market place are the characteristics which have underpinned our growth across Somerset, Devon and Cornwall, delivering quality legal advice to businesses and individuals.

Progressive in our outlook and approach, we have welcomed the changes to the legal profession inspired by the Government and recognise the value of providing specialist non legal services.

As part of our Investor in People accreditation we have contemporary employment policies expected of a major business, investing in training and development of our staff. Allied to this is a desire to fully embrace technology in the management and delivery of a quality service, both of which were independently recognised when the firm won The Law Society Lexcel Award for Excellence in Practice Standards at The Law Society Excellence Awards in October 2007.

focusing on our commitment to you

We have a wealth of experience within our 240 strong legal team with many of our lawyers having trained in, or worked with, some of the top City firms.

We advise businesses and individuals on the spectrum of their needs and undertake private and publicly funded work. Our client base stretches across the country and we pride ourselves on having a thorough understanding of the issues affecting our clients. We remain totally committed to the south west.

Above all we strive to understand fully our clients' needs and to find legal solutions for them.

determined

on time, on budget and on your terms

Decisive in our approach, tenacious in the pursuit of the best outcome and persevering in overcoming legal complexities, we are committed to matching our service offering to the needs of our clients, being totally focused on providing affordable services to individuals, businesses, charities and public sector organisations.

We operate to the highest ethical and professional standards and are committed to keeping our clients up to date on progress in relation to their instructions, focusing on their objectives and applying transparent pricing systems designed to provide certainty of cost.

strength through experience

A legal service is only as strong as the people who provide it. No matter how complex the issue, the range and depth of our experience enables us to bring together the most appropriate team of legal experts.

Lawyers work within and across specialist teams to deliver the quality of service which our clients seek, identifying the options and advising on the course of action which maximises the prospect of achieving the solutions sought by our clients.

supportive caring for our clients

Friendly and approachable, candid and constructive in our advice, our clients can count on us in good times and bad. We are approachable in everything we do and our team is always happy to go the extra mile in pursuit of their legal goals.

By advising on legal issues affecting both businesses and individuals, we are particularly skilled at dealing with owner managed and family businesses.

Being based in and committed to the south west, we strive to be ambassadors for the region, supporting the communities in which our partners and staff live and work.

We listen to client feedback and build it into our ongoing efforts to make our services more responsive and effective.
