

Services for Owner-Managed Businesses

Let's get our heads together

Throughout all stages of the business life cycle - from start-up, investment rounds, growth (organically or through buy and build strategies), group restructurings and exits - we provide effective, commercial and pragmatic advice.

A modular and tailored offering

We want to support ambitious companies and management teams working towards growth and key business milestones. We can work flexibly with our services, creating a tailored solution that meets your needs, rather than a one-size-fits-all approach.

Planning ahead

We are passionate about working with clients over a long period. By partnering with you and supporting you across our specialisms at an early stage, we will be best placed to guide you through transactions. We believe that getting a head start on due diligence, and getting your house in order, will be invaluable, saving time and money whilst also showcasing an attractive proposition for investors and buyers.

Business as usual

We can call upon specialists across all specialisms depending on what you need. We aim to work seamlessly with our clients, becoming an extension to your existing operations.

Innovative technology solutions

We are committed to providing our clients with technologically innovative solutions. In particular, we can provide an integrated data room solution, which we own in-house, and information and reporting systems. This allows us to work collaboratively with clients to monitor and fix issues, with direct input from specialists across the firm.

Costs transparency

We understand that, as well as quality of service, certainty of budget and cost effectiveness are essential elements. There should be no surprises, and we can tailor our fee structures to suit your needs with flexible pricing and payment options.

Get to know Foot Anstey

Foot Anstey is one of the fastest-growing law firms in the UK, employing over 650 professionals across nine locations. Our focus is on providing high-quality, pragmatic legal advice that empowers clients to achieve their ambitions at every stage of their journey.

Our private wealth lawyers are specialists equipped to handle a wide range of issues, whether related to tax, family matters, or business operations. We aim to simplify complexities by delivering clear, concise specialist advice and tailored solutions that align with your unique circumstances.
